

ITS KVARTA – an intelligent transportation system by Kvarata Soft

The screenshot displays the ITS Kvarata navigation application. The top navigation bar includes 'VTBus.net', 'Navigation', and 'Timetable' tabs. The main interface is split into a sidebar on the left and a map on the right. The sidebar shows the origin 'ul. "Kozludzha", 5002 Western Ind' and the destination 'ul. "23-ti dekemvri" 11, 5000 g.k. Asenov, ' with a date of 06/10/2017 at 10:29. It lists the departure time as 10:41 and arrival as 11:07. The mode is 'walking (2 minutes)'. The bus route is identified as 'Bus 110 (Destination: Mavrikov)' with a price of 0.7 leva. The map shows a blue route through Veliko Tarnovo, Bulgaria, with various bus stops marked along the way.

Navigation and Travel Information

ITS Kvarata aims to provide innovative services for the public bus transport and traffic management. It enables various users to be better informed and make safer, more coordinated, and 'smarter' use of transport networks, thanks to the detailed route schedules, bus arrival times, navigation system and other features. It opens up your city to both tourists and local citizens alike, to a new, far more pleasurable, simple and smooth experience with public transport, on a daily basis. The new public transport solution enhances traveling experience, leading to greater numbers of people who choose to travel by public transportation, and improves overall satisfaction of the public.

Why ITS Kvarata is advantageous for your city?

- Better optimized public transport service
- Plan your trip online
- Schedule optimizations and increase in reliability
- Reduced waiting times
- Increased passenger satisfaction

ITS Public Transport

BENEFITS

- Detailed bus route schedules
